

SAPTARSHI PAL

WEB DESIGNER, DIRECTOR

sspal2002@gmail.com
8967046107

Profile

I have experience working with APIs and small Artificial Intelligence (AI) projects. I have developed and implemented solutions to improve the efficiency of existing systems, as well as created new applications to meet customer needs. I have also worked on projects involving machine learning, natural language processing, and other AI technologies.

Skills

Web Design

I am a software developer with experience in developing APIs and small projects using Python, HTML, CSS, and JavaScript. I have a strong understanding of the fundamentals of software development and am comfortable working with a variety of technologies. I am also experienced in debugging and troubleshooting software issues.

APIs

This includes the ability to design, build, test, and integrate APIs into software systems and web applications. The API skills listed in a CV typically include proficiency in programming languages such as Python, Java, Ruby, and PHP, as well as knowledge of API design principles, protocols, and standards such as REST, SOAP, and OAuth. The ability to work with API management platforms and development tools such as Postman, Swagger, and API Gateway.

Artificial Intelligence

Machine Learning: Knowledge of algorithms, statistical models, and techniques used in supervised, unsupervised, and reinforcement learning. Deep Learning: Knowledge of neural networks, convolutional neural networks, recurrent neural networks, and deep reinforcement learning. Natural Language Processing: Knowledge of text mining, sentiment analysis, language translation, and speech recognition.

Experience

Facebook

2005-2007

Senior Interface Designer

Intrinsically enable optimal core competencies through corporate relationships. Phosphorescently implement worldwide portals and client-focused imperatives. Conveniently initiate virtual paradigms and top-line convergence.

Apple Inc.

2005-2007

Senior Interface Designer

Progressively reconceptualize multifunctional "outside the box" thinking through inexpensive methods of empowerment. Compellingly morph extensive niche markets with mission-critical ideas. Phosphorescently deliver bricks-and-clicks strategic theme areas rather than scalable benefits.

Microsoft

2004-2005

Principal and Creative Lead

Intrinsically transform flexible manufactured products without excellent intellectual capital. Energistically eviscerate orthogonal architectures through covalent action items. Assertively incentivize sticky platforms without synergistic materials.

International Business Machines (IBM)

2001-2004

Lead Web Designer

Globally re-engineer cross-media schemas through viral methods of empowerment. Proactively grow long-term high-impact human capital and highly efficient innovation. Intrinsically iterate excellent e-tailers with timely e-markets.

Education

Institute Of Engineering and Management, Kolkata

electronics and communication engineering — **8.5 GPA**
